The Ho-Chunk Nation (Ho-Chunk Nation) is a sovereign government dedicated to improving the lives of its constituents. In 1963, the Wisconsin Winnebago Ho-Chunk Nation was recognized as a federal tribe pursuant to the Indian Reorganization Act of 1934. On November 1, 1994, the Wisconsin Winnebago Ho-Chunk Nation officially changed its name to the Ho-Chunk Nation when the Secretary of the Interior formally recognized its new constitution. The Ho-Chunk Nation's main office is located in Black River Falls, Wisconsin. In addition to its government operations, the Ho-Chunk Nation currently operates six (6) gaming facilities, three (3) hotels, a resort, a convention center, five (5) convenience stores, a gift shop and a number of other ancillary businesses.

2.0 STATEMENT OF WORK

Invitation to Bids (BID) is a method of procurement which obtains competitively sealed bids and is the preferred method for acquiring goods, services, and construction in which the award is made to the lowest responsive and responsible Bidder, that is in the best interest of the Ho-Chunk Nation. Bids are due at the time and date specified in this document. Late bids or bids received after the specified time and date will not be considered and will be rejected and returned to the vendor at vendor's expense, unopened.

The purpose of this Invitation to Bid (BID) is to obtain competitive bid packages from responsible, qualified Bidders to provide REAL ESTATE VALUATION APPRAISAL SERVICES FOR THE HO-CHUNK NATION.

Please note however, the contract, regardless of the length of the term will be subject to the Ho-Chunk Nation's right to terminate the contract, with or without cause, upon prior written thirty (30) day notice.

Freight is all-inclusive unless otherwise stated. The Ho-Chunk Nation does NOT accept any fuel surcharges.

3.0 SCOPE OF WORK

Real Estate evaluation for the purpose of purchase: fair market value. Report must compliant under the specific reporting guidelines of the Uniform Standards of Professional Appraisal Practice (USPAP) and delivered in a digital and physical format.

All relevant information must be included in the appraisal bid including but not limited to Credentials, Certified Appraiser #, Certification issued by the State of Wisconsin Department of Safety and Professional Services (copy of certification must be submitted).

Site Visit and Property Viewing – The appraiser will personally complete an exterior view of the captioned property, and if allowed, complete and verify measurements of all improvements. If allowed (and necessary), the appraiser will complete an interior viewing of all of the improvements.

Evaluating the Property, the Acquisition, and any Damages and/or Enhancements – The appraiser will review the project and plan sheets specific to the property and gain a thorough understanding

about the property in the “before” situation without considering any project influence. If a partial acquisition is being made, the appraiser will evaluate the impact of the acquisition on the remaining property. In addition, the appraiser will evaluate the effects of the project improvements on the remaining property. If the appraiser cites damages to the remaining property that result from the project, they should contract the Nation’s Justice Department to ensure that the damages identified are compensable by law. Any enhancements to the remaining property, irrespective of whether or not damages may be present, should be identified and evaluated.

Valuation Approaches – The appraiser will use all valuation approaches required to provide a reliable and credible estimate of value. The appraiser excludes any approach to value, they will state which approach was excluded and explain why it was excluded. It should be noted that when completing the income approach a discounted cash flow analysis should not be relied upon. However, it may be used as a test of reasonableness when determining the property value when using the income approach. The capitalization rate selected should be supported and explained. Cost estimate sources should be cited and whenever practical and possible, estimates from appraisers and/or developers should be considered.

Market Analysis and Highest and Best Use – The appraiser is expected to complete a market analysis that examines the supply and demand of properties that have the same highest and best use as the subject property. The appraiser is expected to fully develop and report on the properties highest and best use including providing relevant information with respect to soil conditions and/or any physical limitations that may impede site development. If the appraiser requires additional expertise (e.g. engineers, land planners, etc.), the appraiser will make a request to the Nation.

The appraiser should fully develop and explain potential uses that are legally permissible and comment upon their financial feasibility prior to concluding which use is maximally productive for the site as if vacant and available for its highest and best use. If the appraiser concludes that the site should be held for future development, the appraiser is expected to estimate the amount of holding time anticipated before the property can be developed to its highest and best use.

Research – The appraiser is expected to conduct an exterior inspection of all comparables used to derive a value estimate and if possible, also conduct an interior inspection. Whenever possible, also conduct an interior inspection. Whenever possible, the appraiser will verify all comparables with a party to the transaction. Alternatively, the appraiser may state secondary sources of verification if a party to the transaction will not comment or is otherwise unavailable. The appraiser will list all resources used to find and evaluate sales comparables, if applicable lease/rent comparables, if applicable direct capitalization rates, if applicable support cost estimates and if applicable interview and/or survey market participants.

Adjustments – When completing quantitative, or qualitative, adjustments the appraiser will explain and provide a basis for making the adjustment.

Definition of Market Value – Unless otherwise instructed by the client in writing, the appraiser will use the following definition of Market Value:

Market Value – The most probable price, as of a specified date, in cash, or in terms equivalent to cash, or in other precisely revealed terms, for which the specified property rights should sell after

reasonable exposure in a competitive market under all conditions requisite to a fair sale, with the buyer and seller each acting prudently, knowledgeably, and for self-interest, and assuming that neither is under undue duress.

Date of Valuation – For the initial appraisal to be made with the offer, it shall be within three (3) weeks of approval by the County of the appraiser for the project. For post-certificate cases, it shall be the date of the certificate of take.

Hypothetical Conditions and Extraordinary Assumptions – When estimating the “after value” it is assumed that the project is completed as of the effective date of the appraisal. In the event that the appraiser uses any other hypothetical condition or extraordinary assumption, it will be clearly defined within the appraisal report and should be approved in advance by contacting the Nation Attorney.

Confidentiality – Appraiser shall not provide a copy of the written Appraisal Report to, or disclose the results of the appraisal prepared in accordance with this agreement with, any party other than the Nation, unless the Nation authorizes in writing.

The appraiser shall provide the Nation with five (5) copies of the final appraisal report. The report shall become the exclusive property of the Nation.

All proposals must be made on the basis of, and either meet or exceed, the requirements contained herein. All offerors must be able to provide:
